Policies and Practices

Our policies establish standards and help hold schools and educators Accountablity through the use of goal oriented policies ensures that students are receiving a valuable education.

Our school policies are important because they help our school establish rules and procedures and create standards of quality for learning, as well as expectations and accountability. Our policies create a productive learning environment.

Policies address the practical implications of how to achieve the school's vision and are a key means of ensuring that agreed values underpin day-to-day decisions and actions in our school.
